Generative AI Tools: Claude, ChatGPT, Lovable, v0, Figma Make

Web: HTML5, CSS3

Soft Skills: Cross-functional Collaboration, Team Leadership, Client Communication, Problem Solving

WORK EXPERIENCE

UI/UX Designer

July 2024 – Present
Bangladesh

ThemeJunction

- Primary designer for the ThemeJunction website and marketplace themes (e-commerce, consulting, corporate, hotel booking, LMS), owning design direction and working with 7 developers from research to high-fidelity prototypes.
- Improved developer handoff efficiency by 35% by building Figma design systems with auto layout, reusable components, variables, and design tokens, delivering developer-ready files with consistent responsive layouts across desktop, tablet, and mobile.
- Use AI tools (Claude, ChatGPT, Lovable, v0, Figma Make) to create full-page and section designs, from first idea to prototype, so developers get designs faster, while personally making every final design decision.
- Run design QA on every project, validating the built UI against approved Figma designs and resolving visual, responsive, and usability issues.
- Create dashboards, landing pages, brand assets, and social media graphics, adding SVG animation for visual polish and interface feedback.

UI/UX Designer

January 2022 – June 2024
Bangladesh

Bdevs

- Led design coordination for client projects across a 20-person team (4 designers, 16 developers), aligning design work, client requirements, and implementation.
- Reduced revision rounds by 40% with clickable Figma prototypes that gathered client feedback early.
- Designed marketplace themes for 4 industries (finance, education, travel, and local services), guided by user research and competitor analysis.
- Designed dashboard and mobile app interfaces for client projects, covering layout, visual design, and interaction design.
- Designed 5–6 core screens for an enterprise resource planning (ERP) system, defining task workflows and information architecture.
- Built a reusable auto-layout component library and structured Figma files for faster developer handoff.

PROJECTS

Bexon — Corporate Business Theme • Live preview
Designed a corporate business website theme with 11 demo variants and a complete set of inner pages. **Result:** 1,500+ sales and 20+ buyer reviews.

Gerold — Personal Portfolio Website | UI/UX Design • Behance case study
Designed a personal portfolio website template with unique layouts and banner designs, owning all design direction. **Result:** 7.3K views and 173 likes on Behance, and 1,250+ sales on ThemeForest (WordPress 500+, HTML 500+, React 250+).

Solvior — Business Consulting Theme • Live preview
Designed a business consulting website theme as part of marketplace theme work. **Result:** 1,200 downloads across WordPress, Figma, HTML, and React versions.

Edunex — Online Learning Platform • Live preview
Designed an online learning platform theme with 4 demos and 40+ inner pages. **Result:** recognized as a Rising Star on Envato.

Auriva — Hotel Booking Website • Live preview
Designed a responsive hotel booking website with 30+ pages and screens, delivered as a live preview with consistent layouts across desktop, tablet, and mobile. Submitted to ThemeForest and awaiting approval.
